FEBRUARY SURPLUS LIST

FEBRUARY 22nd, 1918

OF THE

FRASER NURSERY COMPANY

INCORPORATED

HUNTSVILLE, ALA.

BRANCH NURSERY AND OFFICE

MONTEVALLO ROAD AND AVENUE F

BIRMINGHAM, ALABAMA

FOR NURSEYMEN

AND

DEALERS ONLY

IMPORTANT!

This list is intended to reach only those entitled to Wholesale Trade Prices. Errors are sometimes made, and in order that our mailing list may be corrected, we will thank any one in the trade to advise us should they have knowledge of our list reaching parties not so entitled.

Do we HAVE YOUR NAME AND ADDRESS CORRECT? Occasionally we find that we are mailing a copy of our list to a nursery and another to its proprietor, under the impression that they are separate and distinct. You can have as many copies as you want and ask for, but we would like to have the business name and owner's name together on our lists for mailing, and shall be very grateful for correction of such errors in address.

FOREWORD

TO THE TRADE:

We have reserved this space in which to say a few words regarding the exceptional value of the stock, particularly the ornamental varieties, offered in this list.

It will be noted that we offer a very splendid assortment of Coniferous, Broad Leaved Evergreens, and Deciduous, Ornamental Stock in specimen sizes, from our Birmingham Nurseries. This stock represents, we believe, one of the best plantings in the South, if not in the entire country, and is suitable for the highest class trade.

All of these items have been grown with a view of having the plants reach perfection of growth, without consideration of costs. We believe there is a need, and a demand for just such high class stock, and in considering this list we ask that you bear in mind that such stock has much greater value to the ultimate consumer than where produced with a view of keeping costs as low as possible to secure orders on a competitive basis.

Attention is called to the fact that Ornamentals of the Coniferous and Broad Leaved Evergreen Classes are shipped with a ball of earth about the roots and therefore may be successfully planted later in the season than the deciduous classes. Also that our complete stock of ornamental varieties enables us to furnish complete lists so that all stock needed for extensive plantings may be included in one shipment on one order, with a minimum amount of expense and trouble to the purchaser.

Items grown in Birmingham are indicated by prefixed letter "B". Those grown both in Huntsville and Birmingham are indicated by letters "H. B." Shipments will be made from either place as may be most convenient. Where no prefixed letters occur it is to be understood that these items will be shipped from Huntsville.

We urge that all orders be placed at once so that prompt shipment may be made and ample time allowed for delays that may be experienced on account of present transportation conditions.

Yours very truly,

**FRASER NURSERY COMPANY,
HUNTSVILLE, ALABAMA**

Branch Nursery and Office
Montevallo Road and Avenue F
Birmingham, Alabama.
Phone West End 753.

TERMS OF SALE

CASH or satisfactory reference, with sufficient time to investigate before shipment, is invariably required of parties unknown to us. To responsible, prompt paying parties, we will extend usual time for payment.

REMITTANCES should be made by Draft on New York, Chicago, or St. Louis, or by Express or Postal Money Order.

CLAIMS for damages or deficiencies to receive consideration must be made promptly upon receipt of goods.

RATES apply as follows: When 10 trees and not over 50 are ordered, the price will be 2½ cents per tree more than the price per 100. Orders for 50 trees or more up to 300, when not less than 10 trees of each variety, will be charged for at the price per 100. Orders for 300 trees or more, when not less than 10 trees of each variety, will be charged for at the price per 1000.

TELEGRAMS—Use Nurserymen's Telegraphic Code, copy of which we will mail upon request. In connection with this we give a cipher word in *Italics* for each grade. When this cipher word is used either in mail or telegraphic orders no other description of the stock is necessary.

PACKING—We believe we excel others in the manner of handling stock. This is due largely to personal experience and supervision. We pack to insure contents from drying or freezing, even though the shipment be delayed in transit.

The cost of new boxes, well made, to be added as follows:

30x30x7½ to 9 feet.....	\$3 00	18x24x7½ to 9 feet.....	\$2 00
24x30x7½ to 9 feet.....	2 75	18x18x7½ to 9 feet.....	1 50
24x24x7½ to 9 feet.....	2 50	15x15x7½ to 9 feet.....	1 25

Bales 25 cents and up, according to size.

In packing small stock we can sometimes use goods boxes that will fill the purpose just as well as our own new cases, and there is considerable saving by so doing. Goods boxes will be used wherever possible, unless otherwise instructed.

SHIPMENTS—When ordering, please state plainly whether freight or express shipment is desired, and give route if by freight. In the absence of this information we will use our best judgment without assuming any responsibility as to delivery. Goods are at purchaser's risk and cost after delivery to the forwarding company. Under the Parcel Post system we are often able to forward small packages for less than the rates charged by express companies. Parties desiring to secure the benefits of Parcel Post should include sufficient for postage in their remittances; the difference, if any, will be refunded promptly.

GUARANTEE—We are very careful to keep each variety true to name as labeled, and are ready at any time to replace, on proper proof, any that may prove otherwise, free of charge, or refund the amount paid, but it is mutually agreed between the purchaser and ourselves that we shall at no time be liable for an amount larger than the original purchase price.

CAUTION—All orders are accepted upon the condition that they shall be void should any injury befall the stock from frost, hail, fire or other causes beyond our control.

REFERENCES—Any Bank or Business House in Huntsville, Alabama, or either of the Mercantile Agencies.

In compiling this Price List we have followed, as far as possible, the fruit nomenclature adopted and recommended by the American Pomological Society and the nomenclature of ornamentals to conform to the 1917 Official Code of Standardized Plant Names, adopted and published by The American Joint Committee on Horticultural Nomenclature and as first published in Volume VI of Bailey's Standard Cyclopedia of Horticulture. Where the name has been changed in fruit trees we show the old name in parenthesis. In ornamentals, where possible, we show common name in parenthesis immediately following botanical specific and varietal name.

200—	2 to 3 feet, branched.....	<i>Major</i>	40 00
100—	18 to 24 inches, few branched.....	<i>Malady</i>	25 00

Note:—The large *Magnolia Grandiflora* offered above are splendid specimens. We do not believe there is a finer block of these beautiful Southern Evergreens in the country. They have been twice transplanted; have an abundance of fibrous roots and straight, smooth trunks with well formed heads. The trees are carefully dug as needed, roots puddled in mud to prevent evaporation and packed immediately. In this way there is no exposure and satisfactory results are certain. We invariably defoliate except for a few leaves at terminals.

BROAD LEAVED EVERGREENS

Items grown in Birmingham are indicated by prefixed letter B. Those grown both in Huntsville and Birmingham are indicated by letters H. B. Shipment will be made from either point as may be most convenient. Where no prefixed letters occur it is understood these items will be shipped from Huntsville.

Prices include Balling and Burlapping where necessary.
